TEAM 5

Kerb Map

Free kerb spaces near you, seen by dashcams and street cameras.

Anup Ghimire · Samarth · Atharva Chaudhary · Parthasarathy Ramunujam

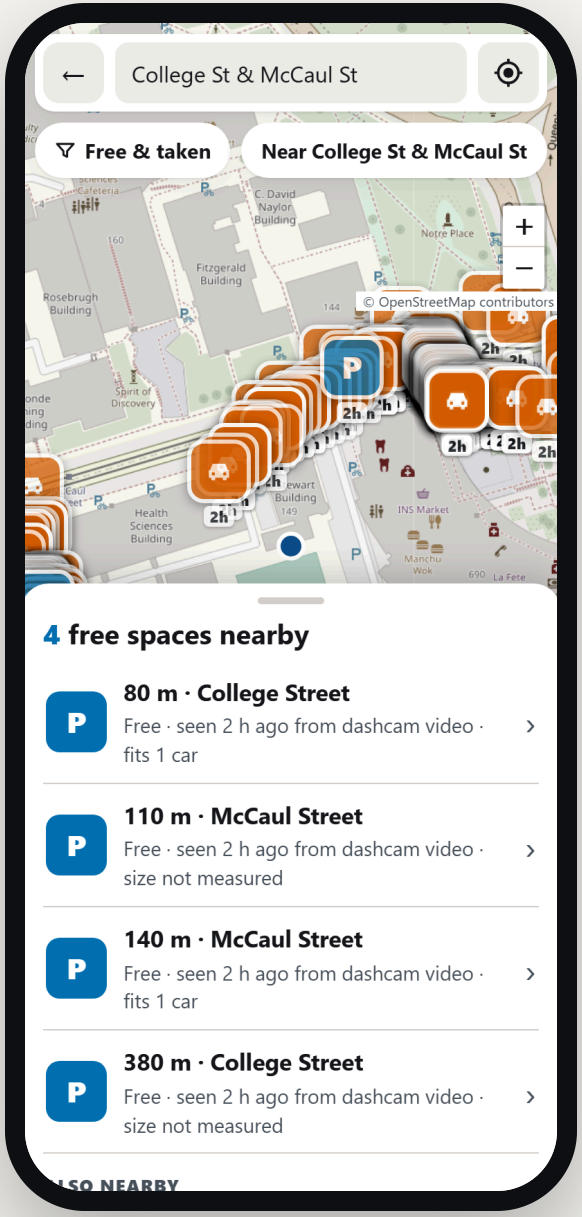

THE PROBLEM

Where's the free space?

1 · Drivers circle **2 · Kerbs are invisible** **3 · Cities count by hand**

- **London congestion**
- **Modern city solution**
- **High demand**

Westminster: ~600 miles of kerb (its 2024/25 report)

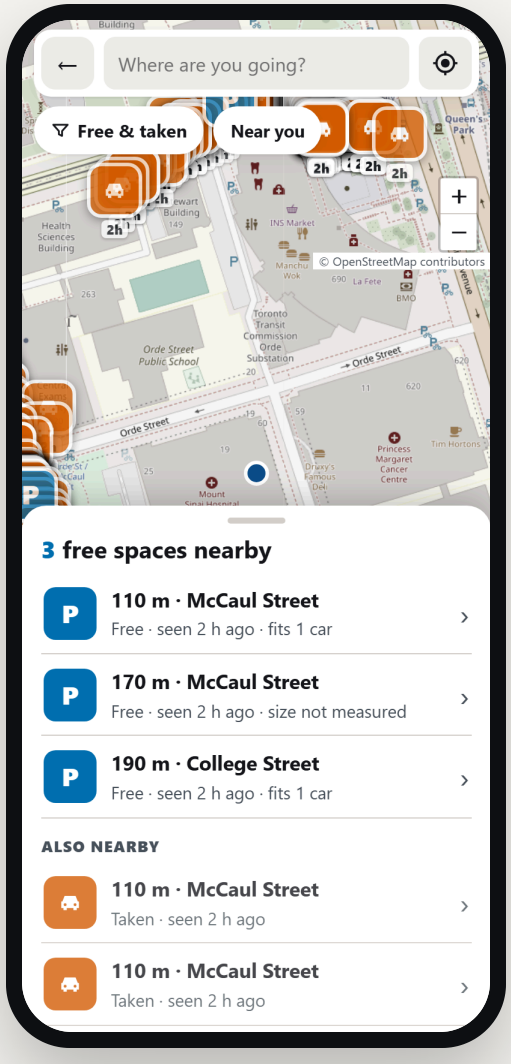

DEMO · THE REAL APP

1. Type where you're going
2. Free spaces appear on the map
3. The nearest free spaces, with when each was seen
4. Tap one: the spot, its size and the dashcam frame
5. "Why we think so": the decision trail

Replay

The app's own code, running on a frozen snapshot of real VastDB data.

WHO IT SERVES

Drivers

Find parking near you, and back up the dashcam drives you already record.

BUYERS, IN THE ORDER WE'D CALL THEM

AppyWay	Holds the UK kerb-restriction map; resells to councils
Arrive · Parkopedia	Receipt feed into Parkopedia availability
APCOA	Garage cameras don't see the kerb
Nextbase + Geopost Vision	Dashcams on parcel vans keep the map fresh
Westminster City Council	Occupancy is still surveyed; a 90-day pilot

Pricing proposed per kerb-km per month, not yet tested

Buyers: team research

HOW IT WORKS

From a dashcam clip to a free space on your phone

Built today · VAST · NVIDIA Cosmos · W&B · Cursor · footage: supplied Toronto PIE drives (PIE dataset, MIT)
